

EcoAI Lab

Looking for highly motivated Interns

Why us?

- ✓ Top CS program in the U.S. with strong peers
- ✓ Publications in top-tier conferences
- ✓ Recommendation letters for strong interns
- ✓ Potential onsite summer internships
- ✓ Prioritized consideration for PhDs

Why you?

- ✓ Self-motivated and hardworking
- ✓ Proficient coding skills (PyTorch/C++/CUDA)
- ✓ Experience in AI, System, or Arch. research

Lab Vision: **AI computing system** with

- ✓ **Efficiency**
- ✓ **Algorithm-hardware co-design**

to enable ubiquitous intelligence
across edge and cloud.

**No.13
CS**

**No.9
CE**

**No.13
Sys.**

Source: CSRankings, U.S. News & World Report

Research Focus:

01 Efficient AI models

LLMs, VLMs, multimodal & generative models

02 AI systems

Training or inference serving systems

03 Algorithm-hardware co-design

Computer architecture, on-device deployment

HOW TO APPLY

Email your CV, Transcripts, and

A description about your research interests, projects experiences, and expected time commitment

To haoran@purdue.edu
